

Want to learn R?

Tuğba Öztürk

Hello!

I am Tuğba.

I am a statistical biophysicist, a workshop facilitator at GradProSkills, a member of RLadiesMTL.

You can find me at  @tugbaoztrk and  @tugbateaches.

What is R?

What is R?

What is R?

- Robust and free!
- Extendible (many R packages)
- A dynamic community

Why learn R?

for making personal websites

<https://tugbateaches.github.io>

Hello,

I'm a PhD candidate in Physics at Concordia University. I work on molecular modelling of membrane proteins – yes, I am one of those physicists who are supposed to show you a movie of a protein jiggling in the middle of their talk. I love computational biochemistry/biophysics, coding (especially with R and Python!), teaching & learning and talking about any of these topics!

I graduated from the [Koc University](#) with a MS in Computational Sciences and Engineering in 2014. Same year, I started my PhD in Physics at [Concordia University](#), where I am working on molecular modelling of ion channels and transporters under the supervision of [Dr. Guillaume Lamoureux](#) at Rutgers University–Camden. I expect to graduate this year.

My full CV is available [here](#).

A quick note about my website: I have built this website using the amazing tutorial by [Emily C. Zabor](#) ♥. I like generating documents (tutorials, presentations, websites) with R. I also like the fact that there is an R package called tinytex – I think it's cute.

Why learn R?

for impressionist artwork

How to learn R?

How to learn R?

1. Local resources:

- GradProSkills workshops (GPDI 515 and GPDI 517)
- [RLadiesMTL](#) meetups!

How to learn R?

1. Local resources:

- GradProSkills workshops (GPGI 515 and GPGI 517)
- RLadiesMTL meetups!

2. Online resources:

- Online courses (Coursera, EdX, DataCamp, Udemy)
- Tutorials (Youtube, RStudio, GitHub)
- Twitter (@hadleywickham, @jennybryan, @juliasilge, @dataandme, @RLadiesMTL)
- Blogs (r-tutor.com, r-bloggers.com)

R for Psychology

- Learning Statistics with R
- Course notes for Psychology Statistics
- R-bloggers' suggestions for researchers in psychology (including lecture notes, mailing lists, online books and workshops)
- Popular websites:
 - <https://rpsychologist.com>
